Rand York Minerals  
South Africa

Dear Michelle,

**S&B's nomination – 4th South African Chrome Industry Dinner**

It's a great honour to nominate Slag and Bulk Contractors for the 4<sup>th</sup> South African Chrome Industry Dinner with the following motivation;

S&B Contractors have continuously displayed an unfounded commitment towards exceptional service excellence at Hernic Ferrochrome. Their operational approach of "People, Plant and Positivity" has successfully created a performance driven culture, the cumulation of which has assisted Hernic Ferrochrome to achieve and in many instances surpass our production targets. S&B Contractors have furthermore through extraordinary onsite leadership, integrated their approach with Hernic Ferrochrome structures and in so doing surpassed the outlines of an OSBMH Contractor, and firmly ratified their position as a strategic operational partner.

Hernic Ferrochrome would hereby like to nominate S&B Contractors for the best service provider award.

Kind regards,

  
**Andries Ebersohn**  
**Act General Manager : Alloys**
